

Oil tanks

For several years now, HBE has made use of its own modern steel construction department. Thanks to the immediate availability of the steel construction, HBE is able to respond quickly and flexibly even with short-term orders. HBE produces oil tanks made from steel or stainless steels with an overall weight of up to 7 tons and a capacity of up to 25,000 litres, as well as aluminium oil tanks with a capacity of up to 70 litres.

More information on oil tanks can be found in our product catalogue. For detailed information and technical specifications, please contact our employees.
